Adapting Climate Change Education Skills and Sustainability for Advancing Locally-led Solutions (ACCESS4ALL) Presents

# Green Skills for Climate Change Professionals

**100%  
Waiver\***

\*The course will be offered free of charge during its pilot stage (First year)

## About the Course

This is a six-week long hybrid professional certificate course. The classes will be held on Fridays and Saturdays at ULAB Main Campus. Read the caption to learn more.

## Eligibility

- ✓ Fresh graduates & Early-career professionals from relevant fields
- ✓ Self-organized and interested in active learning
- ✓ Willingness to participate in fieldwork and workshops
- ✓ Strong communication skills and participate in the interactive sessions
- ✓ Availability to attend weekend classes (10 hours per week)

## Benefits

- Develop practical green skills to address real-world challenges in climate-vulnerable regions
- Experience transformative field visits and community exposure to drive impactful solutions.
- Gain expert guidance in climate project design, proposal writing, data collection, and reporting
- Networking opportunity with professionals and organizations driving innovative climate action.
- Professional certificate upon completion of the course
